Hi,

That's a huge impact to the dealerships with the 1pm time.
Churches too, if it's on a sunday.

Call me at 562.773.5852.

Thanks,

Aaron

Hi Aaron,

I still owe you a response on this. Wanted to give you heads up when you have a minute to chat about Nike Women's Marathon. Last year I was invited to a City Family meeting about a race potentially moving to LA. Then I was told they were planning on having the race at the Grove.

They recently reached out to our Chief of Staff and we met with them today. Their race plan is pretty much cooked and it's going to affect the dealerships. It starts at the Convention Center and goes down Fig on a loop turning at 30th. The closures will start at 3 AM race day and will continue until the cut off time at 1:00 PM.

What number can I reach you at?

Sounds good.

I had couple City related tree and maintenance questions for you and Nora.

On Flower St between Washington and 22nd St., there are 2 street trees (palm trees) that are dead and folding over. Is this something the City could remove?

After a storm or wind event, our clean team picks up a huge amount of palm fronds from the street trees. For years, we've been able to drop the fronds off at the City maintenance yard at 42nd and Main. After a wind event last week, the person at the yard mentioned we couldn't drop the palm fronds off there anymore. That yard has been a godsend for us to clean up and dispose of the fronds quickly. Is there a way you could put in a word for us there and get us access again?

That's it, thanks.

Aaron

Thank you Aaron,

For now just bike racks if there are already garbage cans. I am going to try and walk the area this week to see where the racks will work before I put the request in through DOT.

Definitely in the BID, that's the collection of small businesses, really on the block from 30th to 31st Sts. Felix Chevrolet stuff continues down to Jefferson after 31st St.

That area gets swept and trashcans emptied six days a week, also graffiti removal, etc. I'm all for more bike racks. What type of street furniture were you thinking about?

Also, if you're okay with it, send me the contact info for the person you've been working with and I'd be glad to speak with them about services they receive including safety services.

Thanks,
Aaron

Aaron,

Does the BID cover Flower between Jefferson and 30th? The Councilmember has been approached by the businesses along the corridor and would like to see increased cleaning in the area. It looks like it's part of your coverage map.

I am going to find out about installing Bike Racks and other street furniture.

If you have any objections let me know.
